Facts On File®
1992 Index

Mailed as Section 2, Vol. 53, No. 2721, Jan. 21, 1993

The Facts On File® Cumulative Index

The Index is the key to locating all subjects, people, companies, organizations and countries in the *Facts On File* News Digest articles. The Index is also useful as an independent reference tool for the location of dates of events, full names and titles of individuals and associations.

How to Use

Every subject, personal name, company, organization, geographic area and topic in the news is listed as a **heading** followed by related entries. The Index headings are arranged alphabetically by the letter-by-letter system (for example, **NEWS, NEW York**). Topical **subheadings** divide long lists of entries under headings.

Every **entry** in the Index is a shorthand synopsis of a news item followed by the date and the page reference. The **date** shows the *month* and *day* in numerical form (for example, 11-20 means November 20). The **page reference** shows the *page number,* the *margin letter* parallel to the news item and the *column* in which the item appears on the page. Entries in the Index are usually listed in chronological order.

entry
(shorthand synopsis of news event)
date of event
(November 20)
page reference
(page: 903, margin: E, column: 3)

Tips for easy searching: Don't give up if you don't find what you are looking for under the first heading you try; try other headings related to the story. Virtually every news story that was widely reported in the national press is in *Facts On File.* The index is studded with cross references showing where additional or related information can be found. It is often helpful to search first for a specific name that you know is part of a story, since broader headings accumulate many entries.

Cross references: The heading and subheading cross-references direct the user to other headings and/or subheadings. The word *"See"* in the cross-reference means to turn directly to the heading or subheading mentioned. The words *"See also"* indicate that all entries below should be checked as well as those listed under the other related heading or subheading.

Abbreviations: Abbreviations used in index entries are listed on the reverse side.

How to Use

(For explanation, see reverse side)

HOW TO USE

Every Index entry contains the date and page location of the story:

Further instructions are on the Index Tab Card

HOW TO USE THIS INDEX

Every entry in this Index is a shorthand synopsis of a news item.

The entry also gives the ***date*** of the event (for example, **11-3**—meaning November 3) and the precise ***location*** on the page where the fact can be found (for example, **825A1**—meaning page 825, margin letter A, column 1).

Clinton elected US president 11-3, 825 A 1

Entry (news event) — Date — Page, letter, column (page reference)

See and ***See also*** cross-references under many headings and subheadings indicate where additional information can be found. Fuller instructions on index use can be found on the binder tabs.

QUICK ACCESS TO FACTS ON FILE 1992

The following is a quick guide to locating some of the most important news stories and special features in *Facts On File* 1992. Complete access to all news stories in *Facts On File* is provided by the index.

Special Features
